### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**Cancel claims 1-19.**

#### **In the specification:**

Page 1, line 8, replace “##/#####” with “10/036,591”

Page 1, line 14, replace “##/#####” with “10/036,591”

#### ***Information Disclosure Statement***

2. The information disclosure statement filed 7/15/2005 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered. In this case, none of the non-patent publications have been received.

#### ***Election/Restrictions***

3. Applicant's election without traverse of Group II in the reply filed on 1/10/2006 is acknowledged.
4. This application is in condition for allowance except for the presence of claims 1-19 directed to an invention non-elected without traverse. Accordingly, claims 1-19 been cancelled.

***Allowable Subject Matter***

5. Claims 20-42 allowed.
6. The following is an examiner's statement of reasons for allowance: Leymann et al. (US005960420A) describes a DBMS for a workflow system that recites substantially the same tables as described in the claims c9.18-55. Leymann et al (US006415297B1 describes a process for copying user defined field, but to a log table, not a field in the process table. Although a change in the organization in data in a DBMS could be considered obvious, in this case, there would be no suggestions to take the specific steps of specifically copying a field that was easily accessible through the audit trail and placing it within the process table.

The other cited references are cited as showing the state of the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
